To: helpdesk@more4apps.com

When installing I get the error as in the attachment.
Please, help me!

Subject: More4Apps Wizards - Download Links

The links to download your products are as follows:

- **Requisition Wizard** : [Requisition_Wizard_7.2.43.7.zip](#)
- **Supplier Wizard (R12)** : [Supplier_Wizard_5.00.01.zip](#)
- Shared Installation Script: [R12install.zip](#)

Note: This installation script is shared across all More4Apps products, consequently only needs to be installed once per Oracle instance.

The instructions to install these files are here: [Installation and Configuration for Excel Wizards](#).

After downloading the Product file(s) unzip them to your local PC. Each product will have a server-side zip file. Supply the Shared Installation Script, plus the server-side zip file for each product to your DBA to complete the server-side installation.

After the server-side installation steps have been completed, open the Wizard spreadsheet and follow the configuration steps.

If any assistance is required please contact us at <https://more4apps.com/support>
